About Edge Therapeutics, Inc.

Edge Therapeutics, Inc. is a clinical-stage biotechnology company that discovers, develops and seeks to commercialize novel, hospital-based therapies capable of transforming treatment paradigms for the management of acute, life-threatening neurological and other conditions. EG-1962, Edge's lead product candidate, has the potential to fundamentally improve patient outcomes and transform the management of aneurysmal subarachnoid hemorrhage, which is bleeding around the brain due to a ruptured brain aneurysm. Edge is evaluating EG-1962 in two clinical studies: a pivotal Phase 3 NEWTON 2 study of EG-1962 delivered via external ventricular drain, and a study of direct intracisternal administration of EG-1962.
